Hey guys,

Can you please put together the documents that we need to send out for the EDP claims. No decision just yet but we need to be ready. I think we need a time sheet that needs to be submitted to K DEOC Fiance so we can verify the hours.

Also can you please make sure we are looking at the claims so they are done properly. I just saw one that had all the meals listed in receipts that was approved. If it isn't right, do not approve it.

Thanks, James

With the equipment that is listed below there would not be a need for cranes.

NAT – Northern Alberta Towing is the supplier for tow trucks and would be the best place for equipment sales or who has equipment.

There is a facebook page (NAT would know) that has equipment for sale. I believe it is towing in Canada.

Per [REDACTED] from the Towing association stated Reliable Towing out of Merrit is buying and selling a lot of equipment and believes he has equipment for sale.

Thanks, James

Good Morning Sir,

I spoke with the Towing and recovery Association on Alberta for the equipment that is needed:

2 x Heavy tandem 30-50 ton wreckers

2 x Medium flat deck tow trucks

2 – 4 x Light duty tow trucks (F550 type trucks)

2 x Semi trucks with trailers (scissor necks, landall, double drop) possible a winch truck

2 x Semi tractor units (to pull trailers)

1 x tire service truck with spare 22.5 truck tires

1 x service truck with mechanic and capabilities to do repairs on vehicles

Thanks, James

Hello James,

It would be extremely beneficial to have the CCMG resource on the ground tomorrow morning prior to the swell that we anticipate. As you can imagine their job will be significantly more difficult once the larger crowd arrives.

That being said, is it possible to have CCMG travel today arriving this evening? We will need them to be on the ground tomorrow and likely working quite late. Not providing a travel day will limit their work hours.

Thanks

Subject: Acquisition Cards

Hi James

For those with maxed out acquisition cards, the Sec32 holder of the card can send an email to "NWR AOPS Acqcard" and request a limit increase. They should include the following information:

- Reason/justification for the limit increase request
- Last 4 digits of the card numbers
- Cost Centre of the cards

Thanks

You bet,
We still don't have anything back from TEAM people yet.

Also, this is going to be a issue, meal break not taken. Our STO team is claiming meal break not taken for the entire deployment. We have just been blanket rejecting them so far but this is coming. According to policy **"suitable location"**

for the purposes of meal breaks, includes, but is not restricted to, a down room, rest area, restaurant, cafeteria, lunchroom, workstation, vehicle, or such other location that includes access to washroom amenities;

No we paid for all of STO's meals, and they were stationed at the CBSA port, which has the above.

Also for GD there were two command post brought in to have breaks as well as heated washrooms, which just for record cost \$41,000 to rent.

I am taking the day off, so we can talk tomorrow.

Thanks, James

Good day to all;

CBSA and the s.38

s.38

s.38

s.38 They will be allowed to return to under Canada now under escort from CBSA.

These vehicles will travel a short distance back toward Coutts and ultimately past the point of the blockade, and then back onto Highway 4 and be allowed to continue on their way.

STO resources have been deployed to ensure that the route remains open in an effort to support this plan.

Mapped route attached to provide context of the route.

Regards;

IAN

Mark,

I have contacted NAV Canada and a secondary NOTAM @Checkpoint 10 is now in place. If we wish to upgrade this to restricted airspace please advise or call to discuss the impacts of this on Milk River (CEW5).

NOTAM: L0743/22

5NM radius (N49 08'28" / 112 04'52" Center) * covers both Hwy4/501 east and west
Gnd to 1500'

Expires Feb 9 and can be extended synchronously with our Restricted airspace @ Coutts

Subject: CBSA and RCMP contacts for Transport Canada Flight Operations

Good afternoon folks, I am a Technical Team Lead with the Winnipeg Flight Operations group which is a division of Transport Canada Civil Aviation. Transport Canada Civil Aviation issues NOTAMs (notice to airmen) in order to inform pilots of important updates and potential hazards to note for a specific flight. Some NOTAMs that we issue restrict the airspace for incidents like forest fires or police activities. A NOTAM was issued for the Ottawa area due to the current protests that are taking place. We are wondering if the RCMP and/or the CBSA are looking for our support to assist with the situation in Coutts AB. If you are the proper contact maybe we can discuss the issue at your earliest convenience. I apologize in advance if any of you are not the proper points of contact and if that is the case maybe you would be able pass on the proper points of contact for this type of decision/discussion for each of your organizations? This is also for planning purposes for potential incidents in AB, MB or SK should any additional situations arise in the future.

Thanks for your attention to this matter,

Dave Dunlop

Subject: Coutts - Towing Association

Good evening Corporal,

I have been contacted both by members in K div after DEOC sent a callout for Class 1 drivers as well as by board members of the Towing and Recovery Association of Alberta regarding the situation you are currently dealing with in Coutts.

A little bit about my background:

I am currently posted to B division Corner Brook detachment. Prior to joining the Force, I spent 15 years operating heavy duty tow trucks in Alberta as well as transporting heavy machinery and farm implements. I am a certified Level 6/7 Wreckmaster and also have training in Dangerous Goods first response.

Personal Info.

After speaking with Jody Oliver, Don Getschel and Bruce Campbell tonight, I understand that you find yourself in exceptional circumstances and are having issues finding resources to help open up the commerce route at the border crossing.

If I can be of any assistance to you, in any way, please don't hesitate to reach out anytime. It will be my pleasure to help.

My cell number: **Irrelevant**

Good luck and stay safe.

Subject: Coutts Border Protest - Updated Travel Expense Directives

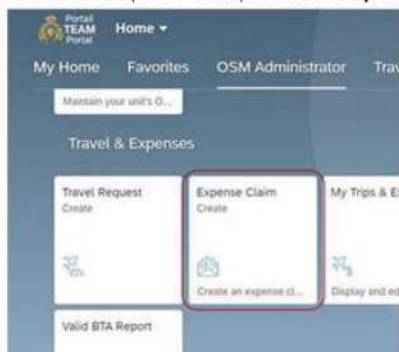

Hello,

In speaking with Rita and Jennifer late yesterday, there is a requirement to update your current joining instructions for this Emergency. I will need time today to complete the task and consult with my Atlantic counterpart who have the latest experience with an Article 9 Emergency with guidance from the Policy Center and CMLRA.

Should you require to send something out immediately note that a **Travel Request is not Required** (unless booking a commercial flight). The Emergency Expense Claim function is to replace the requirement of BTA for an emergency. This is a new functionality and I'm not 100% sure all the functioning since it has only been used once since creation in Nov 2021 and I have yet to touch base with PAC who has used it. Since this is the Expense Claim which will happens post-deployment, there is time to refine the details. I have briefly captured how it works below

1) **A TRAVEL REQUEST IS NOT REQUIRED** (exception being if a commercial flight is required)

a. To Create an Expense Claim; Select the **Expense Claim Create** tile in the TEAM Portal

b. For **Type of Expense Claim** Select **Urgent Operations/Events**

c. Enter Start Date and End Date and Click **Show Emergencies**

General Data

* Start Date: 2022/01/24 00:00

End Date: 00:00

☒ Show Emergencies

d. From the listed Emergency Table, Select **K DIV – COUTTS Border Protests**

Note to DEOC: The table will appear like below. I just created this K DIV – Coutts Border Protests against K0961 IO 749810 effective from 2022/01/24 to 2022/02/31 and it is pending approval from the S.32. Once approved, it would show as a selection.

General Data

* Start Date: 2022/01/24 00:00

End Date: 00:00

Please Select the Emergency for which you are submitting an expense claim:

Client	Start Date	End Date	English Description	French Description	Cost Center	Status	Internal Order

Subject: Coutts Border Protest - Updated Travel Expense Directives

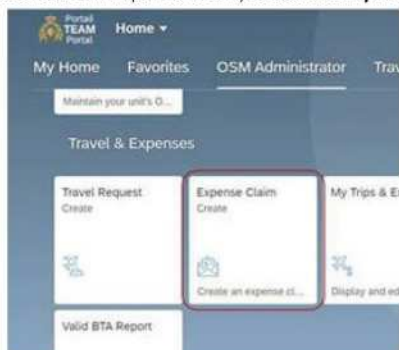

Hello,

In speaking with Rita and Jennifer late yesterday, there is a requirement to update your current joining instructions for this Emergency. I will need time today to complete the task and consult with my Atlantic counterpart who have the latest experience with an Article 9 Emergency with guidance from the Policy Center and CMLRA.

Should you require to send something out immediately note that a **Travel Request is not Required** (unless booking a commercial flight). The Emergency Expense Claim function is to replace the requirement of BTA for an emergency. This is a new functionality and I'm not 100% sure all the functioning since it has only been used once since creation in Nov 2021 and I have yet to touch base with PAC who has used it. Since this is the Expense Claim which will happens post-deployment, there is time to refine the details. I have briefly captured how it works below

1) **A TRAVEL REQUEST IS NOT REQUIRED** (exception being if a commercial flight is required)

- a. To Create an Expense Claim; Select the **Expense Claim Create** tile in the TEAM Portal

- b. For **Type of Expense Claim** Select **Urgent Operations/Events**

The screenshot shows the 'Create Expense Claim' form. At the top, there is a 'Start' button. Below it, the 'Type of Expense Claim' dropdown menu is open, showing a list of options: 'Local - No TAN/No Overnight', 'Canada (Non-Local)', 'United States', 'Foreign / International', 'Non-Travel', 'LO/ADO Operational Expense', and 'Urgent Operation/Event'. The 'Urgent Operation/Event' option is highlighted with a red oval.

- c. Enter Start Date and End Date and Click **Show Emergencies**

General Data

* Start Date: 2022/01/24 00:00

End Date: 00:00

☒ Show Emergencies

d. From the listed Emergency Table, Select **K DIV – COUTTS Border Protests**

Note to DEOC: The table will appear like below. I just created this K DIV – Coutts Border Protests against K0961 IO 749810 effective from 2022/01/24 to 2022/02/31 and it is pending approval from the S.32. Once approved, it would show as a selection.

General Data

* Start Date: 2022/01/24 00:00

End Date: 00:00

Please Select the Emergency for which you are submitting an expense claim:

Client	Start Date	End Date	English Description	French Description	Cost Center	Status	Internal Order
☐ 110	2021/05/01	2022/03/31	EDIV C-IRG FAIRY CREEK WATERSHED	EDIV C-IRG FAIRY CREEK WATERSHED	E1415	APPROVED	747770
☐ 110	2021/09/01	2022/03/31	EDIV C-IRG TRANS MOUNTAIN EXPANSION	EDIV C-IRG TRANS MOUNTAIN EXPANSION	E1415	APPROVED	736503
☐ 110	2021/09/01	2022/03/31	EDIV C-IRG COASTAL GAS LINK - DLT ONLY	EDIV C-IRG COASTAL GAS LINK - DLT ONLY	E0875	APPROVED	741296
☐ 110	2021/09/01	2022/03/31	EDIV C-IRG COASTAL GAS LINK	EDIV C-IRG COASTAL GAS LINK	E1415	APPROVED	741296
☐ 110	2021/09/01	2022/03/31	EDIV C-IRG TRANS MOUNTAIN EXPANSION - DLT ONLY	EDIV C-IRG TRANS MOUNTAIN EXPANSION - DLT ONLY	E0875	APPROVED	736503

Hi James,
Sorry I missed your call and thank you for the voice mail message. Actually, we are following up so that our Regional Director General can provide updates to the Deputy Minister of Transport Canada. So more than just typical situational awareness.
We are currently seeking is if any protestors are still at either Coutts, while it seems all have disbanded, or at Milk River as we are hearing that some have moved on to another location just North of Milk River.
Any continuation of RCMP presence in any of these locations? I would be appreciative of any info you can share with me today.

Thank you,

Donna Sagness

Good morning Donna,

All information is being provided to government through the RCMP NOC from K Div. That information goes over the GOC.

We do not have additional information to share to TC outside of what has already been reported to the GOC.

I spoke to your counterpart this weekend about reporting, and it was agreed TC would be able to receive the reporting through regular channels for situational awareness as this request is outside of TC's mandate or involvement in the protests.

I can share for transportation Canada we have dropped the request for the NOTAM in the area.

Please let me know if you have any further questions.

Thanks, James

Hi James,

I apologize for miss directing my original email and I'd like to gather the information, would that then be from yourself? The questions:

Is it possible to advise if RCMP presence remains at Coutts and/ or Milk River? Are there any new Freedom Convoy protestors gatherings in other locations?

We need to provide an update to the DM this morning and appreciate any information you are able to provide.

Thank you in advance for your assistance, once again.

Good morning,

I believe TC has a contact in the K Div (Alberta) DEOCC (division emergency operational control center) who could provide an official word on the current status. From our aerial observation the blockade turned into a convoy, left the area and dispersed yesterday. I have requested all 5.1 CYR airspaces be removed which has now been confirmed.

This status update are my observations so not an official RCMP-GRC statement. Please go through your contact in DEOCC for something more official.

Thanks!

Mark.

Hi James,

BTAs are not required. Travel Requests are not required (unless commercial travel is required to which a TAN is needed). My understanding is all currently deployed members are traveling by land or force plane.

The current Joining Instructions mention creating a Travel Request although we have functionality to remove this requirement to streamline the administrative process.

Deployed member would create an Emergency Expense claim. I have attached the instruction drafted last week to accompany the Joining Instructions.

Ideally the most efficient direction would have been determine prior to the Joining Instructions. I'm not sure if a change in direction would be beneficial or a hindrance at this point. There would be Travel Requests already made and approved. If the directive to then to just create an Emergency Expense Claim, all these Travel Request would need to be deleted/cancelled.

Who would make the decision on the business approach?

Thanks

Angie

Subject: RE: DEOC Finance / collator
Hello Rita,
Here are some considerations:

SHIFT SCHEDULING

Strategy chosen is a de-centralized model where home shift schedulers will be updating the schedules with the deployment schedules after deployment completion

- Has this information and Shift Scheduling instructions been communicated with the home detachment/home shift schedulers?
- Understanding that the volume is estimated of 50-70 members on a rotational basis, if a member is re-deployed a **second** time to the emergency, the 72 hour rule is re-applied again.
- How is the deployment schedule communicated to the home shift schedulers for updating?
- How is the changed schedule for the deployed hours vetted for accuracy prior to the member claiming EDP?

Important the Shift Scheduling strategy chosen sees the accounting for the difference in the 40 work week leveling to be accounted for after the deployment. This strategy worked for COVID as the scheduling was more so for coverage of regular business hours and not attending to an emergent situation that would require multiple resources for long hours. More than likely the deployment hours will exceed the home shift hours thus members returning to their home unit will have 'time off'. This strategy has a financial impact:

- The true cost of the emergency will not be accounted for against K0961 as a dollar value since the hours will be absorbed in the home unit schedule ie: RM time off
 - Detachments will be impacted by having to accommodate lieu time off due to their members attending the emergency.

> This should be discussed with the financial advisor which will impact the messaging to the deployed members and their home detachments.

EDP

I believe the last emergency has a Work Center created so the EDP recommendation bypassed the home recommender and re-directed to identified Recommenders of the emergency cost center. I am just enquiring with Ottawa on this functionality. Is this something you want? Or did you want the home Recommenders recommending and only approval at K0961?

QUALITY ASSURANCE / INTERNAL CONTROLS

- As mentioned above – who and how are the deployment schedules verified for accuracy?
Keep in mind that emergency deployment scheduling is not common in detachments therefore shift schedulers may not be familiar with the policy clauses.
- Who and how are the EDP claims vetted for accuracy? And vetted against the schedule?
- Are sign-in / sign-out sheets being used?

SUPPORT

- 1st level support:
 - o **DEOC** – Support Members on the business process eg: how do I change the schedule for the 72 hours? How to I keep track of the hour difference between home and deployment? What can I claim for Travel?; etc
- 2nd level support
 - o Business Systems Helpdesk – Support DEOC to address any questions they cannot answer; address system related or error message questions; provide administrative guidance to DEOC; any tickets deemed 1st level support will be redirected to DEOC via e-mail

- CMLRA – Provide management with guidance on the Collective Agreement and member entitlement;
- NPF – Provide Members with guidance on the collective agreement and member entitlement

OTHER STAKEHOLDERS

Have you engaged the K DIV CMLRA rep? They are the entity to provide management with advice and guidance on the RM collective agreement. When you have questions on interpretation of policy or member entitlements from a management perspective, they should be the ones you contact to provide guidance for your management decisions.

Although in the past, Business Systems bridged this gap or solicited NPO involvement when there have been emergencies, with the creation of the CMLRA entity they would now provide this service. Additionally, when members have grievances or would like clarification of policy, they would be going to their NPF rep who would contact CMLRA.

This entity is new and would ensure compliance to RM policy and/or deal with complaints/grievances.

The CMRLA have been involved to varying degrees in Pacific and Atlantic during their emergencies.

Hi Jenn,

The request below is with Finance and updates will be made. Once you have additional names please advise.

I spoke with Angie, and there are a few more questions around the BTAs. First one being, are members flying to the location, or just driving? This can make a difference with the BTAs. She'd also like to see joining instructions. I've included Angie on the email. If you are available for an MS Teams I'll set something up asap. Let me know.

We will also need a spreadsheet tracking member deployment, as this will be used to JV costs as necessary, for resources.

Thanks,

Rita

Rita,

Thanks so much for your help with this!

I spoke to James about the DFSA, and he wanted to make the following changes:

- Please remove Andrew HOBSON completely as a signing authority from the DEOC collators
- Please have Chris FRASIER as a DFSA on collator K0965 ONLY, please remove him from K0961

and K0139 (to free up the spot)

When James determines other DFSA's for the K0961 collator, he will send you an email with name and HRMIS #. This name will only require DFSA for collator K0961.

Thanks!

Jenn

Hi James,

BTAs are not required. Travel Requests are not required (unless commercial travel is required to which a TAN is needed). My understanding is all currently deployed members are traveling by land or force plane.

The current Joining Instructions mention creating a Travel Request although we have functionality to remove this requirement to streamline the administrative process.

Deployed member would create an Emergency Expense claim. I have attached the instruction drafted last week to accompany the Joining Instructions.

Ideally the most efficient direction would have been determine prior to the Joining Instructions. I'm not sure if a change in direction would be beneficial or a hindrance at this point. There would be Travel Requests already made and approved. If the directive to then to just create an Emergency Expense Claim, all these Travel Request would need to be deleted/cancelled.

Who would make the decision on the business approach?

Thanks

Angie

Subject: RE: DEOC Finance / collator

Hello Rita,

Here are some considerations:

SHIFT SCHEDULING

Strategy chosen is a de-centralized model where home shift schedulers will be updating the schedules with the deployment schedules after deployment completion

- Has this information and Shift Scheduling instructions been communicated with the home detachment/home shift schedulers?
- Understanding that the volume is estimated of 50-70 members on a rotational basis, if a member is re-deployed a **second** time to the emergency, the 72 hour rule is re-applied again.
- How is the deployment schedule communicated to the home shift schedulers for updating?
- How is the changed schedule for the deployed hours vetted for accuracy prior to the member claiming EDP?

Important the Shift Scheduling strategy chosen sees the accounting for the difference in the 40 work week leveling to be accounted for after the deployment. This strategy worked for COVID as the scheduling was more so for coverage of regular business hours and not attending to an emergent situation that would require multiple resources for long hours. More than likely the deployment hours will exceed the home shift hours thus members returning to their home unit will have 'time off'. This strategy has a financial impact:

- The true cost of the emergency will not be accounted for against K0961 as a dollar value since the hours will be absorbed in the home unit schedule ie: RM time off

- Detachments will be impacted by having to accommodate lieu time off due to their members attending the emergency.

> This should be discussed with the financial advisor which will impact the messaging to the deployed members and their home detachments.

EDP

I believe the last emergency has a Work Center created so the EDP recommendation bypassed the home recommender and re-directed to identified Recommenders of the emergency cost center. I am just enquiring with Ottawa on this functionality. Is this something you want? Or did you want the home Recommenders recommending and only approval at K0961?

QUALITY ASSURANCE / INTERNAL CONTROLS

- As mentioned above – who and how are the deployment schedules verified for accuracy? Keep in mind that emergency deployment scheduling is not common in detachments therefore shift schedulers may not be familiar with the policy clauses.
- Who and how are the EDP claims vetted for accuracy? And vetted against the schedule?
- Are sign-in / sign-out sheets being used?

SUPPORT

- 1st level support:
 - o **DEOC** – Support Members on the business process eg: how do I change the schedule for the 72 hours? How to I keep track of the hour difference between home and deployment? What can I claim for Travel?; etc
- 2nd level support
 - o Business Systems Helpdesk – Support DEOC to address any questions they cannot

answer; address system related or error message questions; provide administrative guidance to DEOC; any tickets deemed 1st level support will be redirected to DEOC via e-mail

- CMLRA – Provide management with guidance on the Collective Agreement and member entitlement;
- NPF – Provide Members with guidance on the collective agreement and member entitlement

OTHER STAKEHOLDERS

Have you engaged the K DIV CMLRA rep? They are the entity to provide management with advice and guidance on the RM collective agreement. When you have questions on interpretation of policy or member entitlements from a management perspective, they should be the ones you contact to provide guidance for your management decisions.

Although in the past, Business Systems bridged this gap or solicited NPO involvement when there have been emergencies, with the creation of the CMLRA entity they would now provide this service. Additionally, when members have grievances or would like clarification of policy, they would be going to their NPF rep who would contact CMLRA.

This entity is new and would ensure compliance to RM policy and/or deal with complaints/grievances.

The CMRLA have been involved to varying degrees in Pacific and Atlantic during their emergencies.

Hello James,

Sorry to bother you on this long weekend.

Appears the "Freedom Riders" are planning to come to Edmonton on Tuesday (pending weather conditions) and ride their horses in the streets of Edmonton while the GoA Throne Speech take place.

I believe this is the same group that was in Coutts during the blockade. A **Personal** appears to be the main contact for the group and the CoE COORDINATOR ANIMAL CARE AND PARK RANGERS SECTION has reached out to him.

Any insight on this group and their interactions with the RCMP in Coutts would be appreciated.

Subject: Heavy tow equipment management

Good afternoon all,

On February 18th, a project team was put together to examine the continued use, storage and future disposal of equipment recently procured to support RCMP operations at the Coutts border. Although representatives from JSG, SA, AT and RCMP have identified a way forward, there are aspects of the plans that are still being finalized. Notwithstanding, I am delighted to provide the following progress report:

- On February 13, 2022 – The GoA procured the following equipment:
 - o 2007 Freightliner M2, Flat bed
 - o 2010 Dodge Ram 3500 Tow Truck
 - o 2002 International 4300 Medium Tow Truck
 - o 1996 GMC 3500 Tow Truck
 - o 1998 Freightliner Classic, Heavy Tow Truck
 - o 2010 Komatsu D61 Dozer with winch
 - o 1999 Case 621B Wheel Loader
 - o 2010 Arnes Tri-Axle Scissor Neck Lowboy
 - o 2007 Gerrys 60 Ton 16 wheel Lowboy Trailer
 - o 2008 Western Star Semi Tractor
 - o 2006 Peterbilt Semi Tractor
 - o 2014 International Prostar Semi Tractor
- In addition to equipment, three Tow Truck operators were contacted and dispatched to Lethbridge for three days.
- Total cost to SA for equipment was \$826K and \$13.4K for operators
- All equipment is currently stored within a fenced GoA compound at 505 30th Street Lethbridge (Point of contact is **Personal Info.** with Agriculture, mobile **Personal Info.**).
 - o The compound is quite large and is at our disposal for the next few weeks.
- All equipment has been properly registered / plated and have ARI payment cards. Vehicles requiring a Commercial Vehicle Inspection have been exempted by Transportation, until March 1, 2022.
- As of this date, RCMP are still utilizing the equipment listed above. RCMP would like to maintain/store all equipment in Lethbridge (for the short term) in the event there is further blockade action by demonstrators.
- The RCMP member in Lethbridge currently managing all the equipment (and in possession of ignition keys) is Staff Sergeant James Morton (james.d.morton@rcmp-grc.gc.ca) **Irrelevant**
Irrelevant

Going forward, the project team has landed on the following:

- Short Term (Feb/Mar) considerations:
 - o As of today (Feb 23) RCMP are still utilizing the equipment
 - Risk Management Insurance have been informed of added inventory and current usage by RCMP.
 - Action Item: Service Alberta is preparing a Service Agreement for the RCMP for interim use of equipment
 - Action Item: RCMP will provide a more definitive timeframe as to how long the equipment will be required
 - Action Item: Transportation will provide support for Commercial Vehicle

st

Inspections on or before March 1 (while there is a possibility of extending exemption requirements, this is not the preferred option)

- Medium Term (Next two / three months) consideration:
 - o Relocate all equipment to existing GoA storage facilities / compounds (eg. The Bonaventure warehouse in Edmonton)
 - Action Item: JSG/RCMP/AEMA - Determine how long the GoA retains all equipment (likely until end of summer 2022)
- Long Term considerations:
 - o Determine if there is a permanent requirement to retain this equipment, or dispose through Crown assets.
 - o Determine if there are opportunities to recoup funds from the Federal Government

Please let me know if you have any questions or concerns. I will provide further updates as required.

Kind regards,

Pers.

Subject: meal breaks during OT and meal break premiums

Hello James,

During our phone call yesterday, you asked a question regarding meal break premiums as a result of claims arising from the members working overtime at the Coutts border.

Requests for meal break premiums would be paid in accordance with articles 25.11 and 29 of the collective agreement:

Meal breaks during overtime (OT) or outside a scheduled shift on a designated paid holiday (DPH)

25.09 The Employer may authorize a Member to take a meal break with pay at a suitable location during overtime (O/T), or outside a scheduled shift on a designated paid holiday (DPH).

25.10 For every four (4) consecutive hours worked, Members are entitled to a meal break of thirty (30) minutes.

25.11 If the Employer is unable to provide this meal break because of operational requirements, one (1) thirty (30) minute meal break premium may be claimed in accordance with clause 29.07. This clause shall not apply to a Member who is travelling while on travel status.

Meal Break Premium

29.06 Due to operational requirements, the Employer may require a Member to remain on active duty for a fully scheduled work period, inclusive of the meal break period.

29.07 Pursuant to clause 29.06, a Member is entitled to be paid a meal break premium equal to one and a half (1 1/2) times their straight-time rate of pay for each fifteen (15) minute period where:

- a. the Member was interrupted during their meal-break period for more than fifteen (15) minutes for operational requirements; or
- b. the Member was unable to access a suitable location, as defined in clause 2.01, for the meal-break period.

29.08 For a scheduled twelve (12) hour shift, eligible Members are entitled to claim forty-five (45) minutes and for a scheduled shift less than twelve (12) hours, eligible Members are entitled to claim thirty (30) minutes.

Referring to article 2.01, the definition of suitable location is:

"suitable location"

for the purposes of meal breaks, includes, but is not restricted to, a down room, rest area, restaurant, cafeteria, lunchroom, workstation, vehicle, or such other location that includes access to washroom amenities;

Link to collective agreement: <https://www.tbs-sct.gc.ca/agreements-conventions/view-visualiser-eng.aspx?id=28>

I'm not sure that this sufficiently answers the questions you may have had. If not, please email me or give me a call with more specifics and we can figure it out.

Thank you,

Naomi

Subject: Media Inquiries and Tow Offer

Good morning Tim,

Two quick things for you:

- 1.) RJK Towing out of Okotoks called our Detachment this morning and advised they have several heavy-duty tow trucks that they would be happy to deploy to Coutt's to assist the RCMP. If you are interested or would like those resources, please contact "Cindy" at 403-998-6607
- 2.) We received a media request from CTV this morning regarding the border and protest events. They were looking to contact someone who they could discuss this with or interview etc. I assume the MRO is doing this, but I was wondering if you had any contact information for someone I could give the Media if we get further requests?

Thank you,

Dave

Subject: Question - GoA - Tridem axle trailer

Morning James,

Just wanted to touch base regarding one of the pieces of GoA equipment, the tridem axle trailer. On 2022/02/17, when the VRT was unloading the Versatile tractor from the trailer, a couple boards on the deck broke (photo attached). It's not anything significant and the trailer can still be used. Would we loop the National Claims Centre in on this or leave it with the GoA as it's their equipment? I will send a message to **Personal Info.** our local Sheriffs contact, today to advise.

I'm off next week, but can make the call to NCMP if needed.

Thanks,

Lee

Thanks for the update James,
I received your email, but the image did not come through. I spoke with Matt Teasdale (PSC) and prior to the CAF conducting any type of staff checks, all other provincial and federal resources must be exhausted.
Bear in mind that there is also a significant optics portion to this. It would be highly undesirable for the CAF to be seen removing protester vehicles.
Please keep me apprised of the situation.
Kind regards,

LCdr Richard. W. Joa

Subject: Request for heavy equipment from CAF

Good Morning Lieutenant-Commander Joa,

Further to our conversation this morning,

We have exhausted the local resources to try to more the Coutts blockade. Tow trucks will not attend and we have been advised they are being paid by the crowd funding to not attend. We had tow trucks yesterday, but today they have refused to attend due to the amount of threats they have received and the damage it will do to their reputation.

We are starting the formal request for heavy lift vehicles to remove the blockade from the road. It is a mix light trucks all the way to Super B trains with loads (super B train weight max legal load is 63,500 kg).

I have attached a aerial picture of the blockade. RCMP will provide all security of the site and to CAF personal.

If you have any questions, please feel free to give me a call.

Thanks, James

Chaylene,

This looks good to me. I am away next week when we expect the details will be finalized- I think we are targeting to release Monday/ Tuesday. I know we need to add the bit that says:
*PSOHP recommends wearing a masks at all times, even in cubicle and open workplace environments, even when physical distancing is possible: however, **divisions may consider their P/T or local masking requirements as restrictions continue to evolve.***

I will ask the others to offer their comments. I'm not sure if James had an opportunity to speak to Minal about helping us with the final copy.

Thanks for putting this together (as always). I really appreciate the work.

Peter

Hi Rob,

Im guessing you are taking over from S/Sgt Morton on the vehicle towing side?
Airports are not something we are going to want to store a vehicle. The last thing we want is a vehicle being driven through a fence at a airport if someone tries to take back their vehicle. If we seize the vehicle we need to ensure it is stored in a safe location. The airport will not take this on. As the vehicle towing plan was to ensure there is a safe location to store these, is this something you are continuing? There was talk of storing it at CPS or EPS's storage facility. Do you know if this was followed up on? If there was a no I would suggest we reach out to **Personal Info.** with the Province to see if they have a location.
Feel free to give me a call.

Thanks, James

Personal Info.

Hi folks,
I am taking over the Vehicle Recovery Team in Coutts. I understand that we are to remove the 3 seized vehicles from WillysTowing and Bring down to Milk River while DEOC searches for another place to store them. S/Sgt Tim Kelly questioned me this morning if the Lethbridge Airport is an option since it is federal.property and fenced. Apparently there was previous discussion about this. Has that been explored? If it is N option I would further wonder if medicine hat airport is an option to prevent mass miles and movement of the equipment.

Cpl. Stanviloff / DIO Wirachowsky,

Our PROS File 2022167209 refers // Forwarded for your attention is it relates to the protest in Coutts, AB.

Queens District RCMP (L Division - Prince Edward Island) received a call from a resident of Cornwall, PE who came across both a website and YouTube video relating to the protest in Coutts. The caller felt the video was worth watching as it relates to the protest, as the content is anti-mandate/anti-governmental in nature but no overt threats were noted. The video, posted to YouTube, is reportedly shot in Milk River on 2022-02-03.

Please see the supplementary report in the a/n file for the links.

Hello James,

So far we have five confirmed tow trucks. We are currently working on a sixth. Because the Twittersphere is aware government is currently purchasing equipment, I do not want to compromise our secure marshalling site in Lethbridge (address below).

All vendors have agreed to deliver the tow trucks. The address I will give them is the Coaldale RCMP detachment, 705 19A Ave Coaldale (is that correct)?. Taking possession of the tow trucks as they roll in, is Sheriff Inspector Personal Info. [REDACTED] with Highway Patrol, Personal Info. [REDACTED]

James – as we discussed, you'll then have RCMP members transport the tow trucks from Coaldale to our compound in Lethbridge.

Confirmed vehicles to date

- 2007 Freightliner M2, VIN 1FVACYDJ26HV42311
- 2010 Dodge Ram 3500 Tow Truck VIN 3D6WG4EL9AG114361
- 2002 International 4300 Medium Tow Truck VIN 1GDKC34F3TJ505699
- 1996 GMC 3500 Tow Truck VIN 1GDKC34F3TJ505699
- 1998 Freightliner Classic, Heavy Tow Truck VIN 1FUPDDYB5WP945857

Good Morning,

Your claim has been selected for pre audit.

I have reviewed your claim and noted the following:

- Per the travel directive, breakfast per diems will have to be removed on the days breakfast was available to you at the hotel. The travel directive states that you are entitled to get breakfast elsewhere if the breakfast available was not adequate. However, if you choose to purchase breakfast when breakfast was available as part of your accommodation you will be reimbursed the actual costs of the breakfast purchases (up to the per diem of \$21.35) and cannot receive the full per diem rate.

You can claim the breakfast per diem on January 29 & 30 as you departed before the hotel breakfast was available but the per diem will have to be removed for January 31-February 12. You can add a new receipt under meals and put in the lump sum of your actual breakfast purchases. Please upload your receipts for these purchases as well. If you do not have the receipts you can complete the attached lost receipt declaration instead. Once the changes have been made don't forget to resubmit your claim for re-approval to your section 34.

3.3.9 Meals

A meal allowance shall not be paid to a traveller with respect to a meal that is provided. Where a traveller has incurred out-of-pocket expenses to supplement meals provided, the actual incurred costs, excluding costs for alcohol, shall be reimbursed, based on receipts, up to the applicable meal allowance.

Please let me know if you have any questions.

Thank you,

Alyssa Elzinga

Subject: URGENT - Joining Instructions required for immediate deployment of Federal Policing INSET Resources for Investigative Team Assistance 2022-02-11 to 17 - ACCOMMODATIONS NEEDED

Importance: High

Good Afternoon DEOC,

The following members from INSET South are assisting the Investigative Team at SITE and require hotel rooms from tonight Feb 11 to Thursday Feb 17 (check out on Feb 18)

- Sgt. Leanne Lind, Irrelevant
- CPS Sgt. Doug Crippen, Irrelevant
- Cpl. Jordan Forman, Irrelevant
- Cst. Trevor Checkley, Irrelevant (Cst. Checkley has a hotel room but will need to extend from Feb 13 to Feb 17)

INSET members please do not book your own hotel rooms. Joining Instructions will be provided shortly and will give you details on a Reception area in Lethbridge where you will attend and be assigned rooms for your deployment.

If you have any questions or concerns please let me know.

Insp. Young or delegate: When possible can you please provide me the shift schedule these members will be working for their deployment. Federal Policing is responsible for tracking hours for all Federal resources.

Regards,

Kent

Good evening Aaron,

Are you able to provide a list of vehicles.

The idea for context is to reach out to the owners to see if they are aware their equipment is involved.

Let me know if this is possible.

Thanks, James

Subject: Vehicle Information List

Good afternoon ,

Further to our conversation, we have members collecting vehicle information as part of their duties in the area. We are requesting RCMP share a list of licence plates for vehicles (including trailers) they have collected. This would allow us to gain further intelligence and help determine if trailers in the area have been used without the knowledge of the company owners.

Thank you,

Subject: When Your Time Permits re: DEOC Minute Taking

When your time permits, can you weigh in on something that has come to my attention. I am speaking to this from a point of view that includes my CIP background, Executive Assistant background and years of experience with other specialized units and the frontline. I may be 'out of bounds' here but feel this merits some input, from DEOC's perspective.

All messaging, minutes, Incident Commander (I/C) Notes, etc. are all 'disclose able' and should be easily identifiable. Incident Commander's Notes may/may not include minutes and other pertinent documentation relevant to each day. It has come to my attention that minutes, forming a part of the I/C's notes, do not include pertinent details that. Under normal circumstances these pertinent details are captured by the Minute Taker.

That being said, can you confirm whether or not DEOC instructs their minute takers to not disclose pertinent details? For the majority, minutes currently being taken in and/or for DEOC only include the 'time' of the meeting and do not pertinent details (*i.e. meeting name, meeting date, meeting location, name of minute taker, total number of page-1 of 9, 2 of 9, etc.*).

If DEOC has instructed their minute takers to 'not' disclose these pertinent details, my apologies and you can disregard my message. However if capturing these pertinent details is an oversight, I can prepare a 'template' that can be shared with DEOC Minute Takers to follow moving forward.

I recognize there is a high turnover of support during major events and a template may discourage 'missed information' moving forward.

Please keep in mind this is not criticism, just me making an effort to standardize our Division's efforts during major events.

Good Afternoon James,

Following up on our earlier conversation and in consultation with D.C. Brezinski, the EPS requires support of the Edmonton Police Commission to deploy outside of our jurisdiction to support the RCMP Southern Alberta Deployment. Could you please draft a written request addressed to the EPS Chief of Police outlining the current situation, what type and number of EPS resources & assets are required, and the timeframe required for the EPS resources and assets to be deployed. Please send the request through me and I will send up through the EPS Chain of Command.

If you have any questions, please do not hesitate to contact me.

Thank you,

Subject: General Broadcast to all members
Date: January 29, 2022 2:27:00 PM

Good Afternoon,

Today we are experiencing multiple events that are occurring across the province in relation to the Convoy Protests and want to provide a update to all members working.

Southern Alberta – Coutts has a very large convoy that is spanning KM's long. SAD is managing this as a major event and has additional resources deployed to the area. The convoy is bigger than expected, and not blocking traffic or obstructed into the United States. Currently this is not a public order event, but should this turn into a blockade, we are preparing a response.

Edmonton Legislature Protest – There is a large amount of traffic that has converged into Edmonton from all over the Province. We have had traffic disruptions because of the sheer volume of vehicles trying to enter into the city. We have traffic and General Duty members on the routes monitoring. Currently there is estimated 5,000 people at the Legislature and multiple convoy vehicles in the Edmonton City Core.

There have been multiple other convoys and protests that have occurred, and we thank everyone for the updates that they have provided to District and to DEOC.

Please be mindful there will be returning traffic from these events and ask for a presence on our roads throughout the day.

If there are updates to provide, please send them through your district or through OCC.

Thank you for all of your support in keeping Alberta safe.

Subject: Location for vehicles
Date: February 21, 2022 1:44:00 PM

Good Afternoon Rob,

Meadowlark Towing in Spruce Grove has agreed to store the equipment, and they are already a RCMP vendor used by Post Garage.

Perso is the contact and his number is **Personal Info**. He was told the equipment and the issues with the other storage locations. He does not see this as a issue as he no longer has a towing company and is mainly logistics.

As per our discussion, if you move the equipment to Airdrie scale off Hwy 2 tonight, DEOC is working with SAD to come up with one member to guard the equipment.

If you can work with **Perso** for a mechanic to assist with getting the tractor started so it can be driven off the trailer, as the trailer is GOA equipment and may be needed for towing elsewhere.

The location is off of Hwy 16 near the Ford Dealership, and **Perso** will give you the instructions. I will reach out to **Personal** about the overnight at the scale.

Let me know if you need anything further.

Thanks, James

Traffic Offences

S1(p)TSA- Interpretation: (p) “highway” means any thoroughfare, street, road, trail, avenue, parkway, driveway, viaduct, lane, alley, square, bridge, causeway, trestleway or other place or any part of any of them, whether publicly or privately owned, that the public is ordinarily entitled or permitted to use for the passage or parking of vehicles and includes

(i) a sidewalk, including a boulevard adjacent to the sidewalk,

(ii) if a ditch lies adjacent to and parallel with the roadway, the ditch, and

(iii) if a highway right of way is contained between fences or between a fence and one side of the roadway, all the land between the fences, or all the land between the fence and the edge of the roadway, as the case may be, but does not include a place declared by regulation not to be a highway

“park”, when prohibited, means allowing a vehicle to remain stationary in one place, except

(i) while actually engaged in loading or unloading passengers, or

(ii) when complying with a direction given by a peace officer or traffic control device;

(m) “parking lane” means that portion of a provincial highway between

(i) the edge of the roadway to the right of the direction of traffic, and

(ii) the nearest solid white line, not being the centre line, marked on the roadway;

Parking outside of an urban area – Use of Highway Rules of the Road – Fine \$135

43(1) This section applies only to a highway that is outside of an urban area.

(2) A person driving a vehicle shall not park the vehicle on a roadway when it is practicable to park the vehicle off the roadway.

As the premises is closed, there is no reason to park on the roadway and public is not allowed to park on the road. There is no parking lane in the area and therefore people cannot park their vehicle on a roadway

Removal of the vehicle – Section 77 TSA

Removal of vehicles

77(1) A peace officer may cause any vehicle to be removed and taken to and stored in a suitable place when the vehicle

(a) is abandoned under section 76;

(b) is left unattended on a highway in a manner that obstructs the normal movement of traffic;

(c) is parked on any highway in contravention of this Act or a bylaw;

Stunting S. 115 (2) TSA A person shall not do any of the following:

- (e) perform or engage in any stunt or other activity that is likely to distract, startle or interfere with users of the highway;
- (f) drive a vehicle so as to perform or engage in any stunt or other activity on a highway that is likely to distract, startle or interfere with other users of the highway;

Section (f) is in relation for a driver performing the stunt, and (e) is for someone not in a vehicle,

Subject: Overtime for backfill - Finance
Date: February 11, 2022 1:01:00 PM

Good Afternoon Everyone,

Apologies if this information is different than previous, but we received clarification from CMB about costing of overtime for backfill at Detachments due to the protest.

Any backfill overtime is billed to the home unit collator they are working, as they are the ones that approved the overtime, and attach the following **I/O 749870**

This I/O will be pulled at the end to see the total cost for this event. We can not add it to the emergency collator as it can not be tracked properly or approved centrally.

Please if you can send this out to your Detachments. If there is a claim that is submitted, we will reject them here with the updated instructions and provide the proper I/O.

Please let me know if you have any questions.

Thanks, James

Hello James,

Sorry to bother you on this long weekend.

Appears the "Freedom Riders" are planning to come to Edmonton on Tuesday (pending weather conditions) and ride their horses in the streets of Edmonton while the GoA Throne Speech take place.

I believe this is the same group that was in Coutts during the blockade. A **Personal** appears to be the main contact for the group and the CoE COORDINATOR ANIMAL CARE AND PARK RANGERS SECTION has reached out to him.

Any insight on this group and their interactions with the RCMP in Coutts would be appreciated.

Subject: Public Order Events - K Division 2022-01-28

Good morning,

See attached Open Source Report regarding upcoming public order events in K Division. Events are planned at the border crossings with the USA and multiple convoys are planned throughout the province on 2022-01-29.

KEY FINDINGS

- A rally is planned at the L.A. Crude Sports Club, 4205 48 Ave Leduc, AB at 1900hrs 2022-01-28. The organizer is All Fired up for Freedom, with **Personal** and **Personal Info.** in attendance. **Perso** **Personal** to be the MC.
 - Detachment: Leduc
- A series of protests/rallies are planned along the United States/Canada Border on 2022-01-29. These are in support of the Trucker Convoy Rally on Parliament Hill in Ottawa. In Alberta these will take place at Coutts, Carway and Del Bonita Border Crossings.
 - Detachments: Milk River, Raymond
- Between 7 and 10 convoys, both large vehicle and personal vehicle, are destined for the Alberta Legislature on 2022-01-29.
 - Detachments: Athabasca, Airdrie, Barrhead, Blackfalds, Didsbury, Innisfail, Leduc, Morinville, Okotoks, Olds, Parkland, Ponoka, Red Deer, Westlock, Wetaskiwin
 - Potentially affected detachments: Boyle, Fort Saskatchewan, Kitscoty, Lloydminster, Redwater, Strathcona, Tofield, Vegreville, Vermilion, Wood Buffalo
- Localized rallies in support of the Trucker Convoy are planned on 2022-01-29 in Grande Prairie, Fort McMurray, Red Deer and Edmonton.
 - Detachment(s): Grande Prairie, Red Deer, Wood Buffalo

Good Morning Sir,

I spoke with the Towing and recovery Association on Alberta for the equipment that is needed:

2 x Heavy tandem 30-50 ton wreckers

2 x Medium flat deck tow trucks

2 – 4 x Light duty tow trucks (F550 type trucks)

2 x Semi trucks with trailers (scissor necks, landall, double drop) possible a winch truck

2 x Semi tractor units (to pull trailers)

1 x tire service truck with spare 22.5 truck tires

1 x service truck with mechanic and capabilities to do repairs on vehicles

Thanks, James

With the equipment that is listed below there would not be a need for cranes.
NAT – Northern Alberta Towing is the supplier for tow trucks and would be the best place for equipment sales or who has equipment.

There is a facebook page (NAT would know) that has equipment for sale. I believe it is towing in Canada.

Pers from the Towing association stated Reliable Towing out of Merrit is buying and selling a lot of equipment and believes he has equipment for sale.

Thanks, James

Subject: FW: 2X CCMG Fri-Sun

Hello James,
It would be extremely beneficial to have the CCMG resource on the ground tomorrow morning prior to the swell that we anticipate. As you can imagine their job will be significantly more difficult once the larger crowd arrives.
That being said, is it possible to have CCMG travel today arriving this evening? We will need them to be on the ground tomorrow and likely working quite late. Not providing a travel day will limit their work hours.

Thanks
Trevor

Subject: RE: Acquisition Cards - URGENT!
Date: February 15, 2022 1:09:00 PM

Hi Kristine,

I'll save some time and answer on behalf of Rodney and Allan for this.

The cards they have are to support the Special Tactical Operations and are being used to purchase all items to support a 120 person team.

They have many items on the cards, such as vehicle rentals for large vans to move the troops, equipment rentals such as light plants and heavy equipment, purchased specialty helmets for safety, and there are times where they are purchasing meals for the entire team when they are working in remote areas and people can leave their assignment to get a meal.

I'm sure you can appreciate the complexity in an emergency to feed people, and there is a PO and contract with the vendor in place for this now.

Just currently there is no room to make other purchases due to the cards at max.

Can we either increase the payment or put an emergency payment on this card to allow room to pay for the rental cars and equipment.

Please call me if you have any questions and I anything I can do to help with this.

Thanks, James.

Hello everyone.

We are still reviewing the limit increase request but please note that I have mentioned it is urgent, my apologies for the delay.

Further to the request, I've been asked to confirm with you if the expenses paid for the meals will be added on travel claims? And if there are other possible options to purchase the meals? The reason I'm asking about these is because the policy mentions the purchase of meals are not allowed to be paid by an acquisition card but a travel card instead:

3. 5. An acquisition card must not be used for:

3. 5. 1. travel expenses, e.g. fuel, meals, accommodation, air travel, transportation or other expenses covered by [FMM ch. 9.8](#), or the [National Joint Council Travel Directive](#). Travel cards may be used for such expenses;

<http://infoweb.rcmp-grc.gc.ca/manuals-manuels/national/fmm-mgf/7/7-8-eng.htm>

Below is the summary (as per RON PARKER's attached email) of the request since there are multiple email threads for this request and one email thread contained an incorrect information:

- Reason/justification for the limit increase request: **The members have been deployed to Coutts for several days and have been buying meals, equipment etc.**
- Last 4 digits of the card numbers:
 - **ALLAN WATT – 2761**
 - **RODNEY KOSCIELNY – 3968**
- Cost Centre of the cards: **K6569**
- New limit requesting: **\$40,000 (as the balance is not yet settled by RCMP)**

Thank you.

Kristine

Good Day!

As per the below email stream, I have answered the required information in bold/capitals.

Allan WATT can join in as well.

It is imperative this is expedited in terms of hours, and not days. We are in on an emergency deployment with national and provincial implications. Our acquisition cards are maxed-out and we have external partners arriving to do enforcement with our Special Tactical Operations Team. We are providing water/snacks because of the remote location of the Coutts Border Crossing.

Thanks for doing this!

Rodney

Subject: Acquisition Cards

Hi James

For those with maxed out acquisition cards, the Sec32 holder of the card can send an email to "NWR AOPS Acqcard" and request a limit increase. They should include the following information:

- Reason/justification for the limit increase request – **WE ARE IN A EMERGENCY DEPLOYMENT; PAYING FOR MEALS, WATER, ETC, AT A REMOTE SITE WITHOUT ACCESS TO RESOURCES AND MEMBERS ARE UNABLE TO ACCESS RESOURCES AS WELL; CREDIT CARDS WERE FILLED QUICKLY FOR PURCHASING MEALS, PROCUREMENT OF EQUIPMENT;**
- Last 4 digits of the card numbers – **KOSCIELNY 3968**
- Cost Centre of the cards – **K6569**
- **New amount limit requesting: BUMPED UP TO \$30,000**

Thanks

Heidi

You bet,

We still don't have anything back from TEAM people yet.

Also, this is going to be a issue, meal break not taken. Our STO team is claiming meal break not taken for the entire deployment. We have just been blanket rejecting them so far but this is coming.

According to policy **"suitable location"**

for the purposes of meal breaks, includes, but is not restricted to, a down room, rest area, restaurant, cafeteria, lunchroom, workstation, vehicle, or such other location that includes access to washroom amenities;

No we paid for all of STO's meals, and they were stationed at the CBSA port, which has the above.

Also for GD there were two command post brought in to have breaks as well as heated washrooms, which just for record cost \$41,000 to rent.

I am taking the day off, so we can talk tomorrow.

Thanks, James

Subject: Authorities quick-reference document, re: convoys, problematic vehicles at muster points etc

Hello District Ops Officers and ADOs, and Traffic Services,

Based on best practices and lessons learned especially in CAD/Edmonton with slow roll convoys, attached is a quick-reference/summary document for members and supervisors.

This could be shared with members working on convoys etc, electronically and/or as a printed-off sheet.

Of course this document is only a supplement to briefings and ops plan direction, but was requested as an additional tool.

If you have any feedback or updates to suggest, please contact me with a CC to Insp. Moreland; we would make changes and re-share as applicable.

Thanks,

Andrew

Subject: Throne Speech convoys, best practices re: problematic vehicles at convoy muster points
Hello Districts and Traffic,

I am sending this to Ops Officers and ADOs, with CC to DOs, given the short timeline before Tuesday's Throne Speech. This message is based on info from Supt. Pam Robinson in CAD, re: best practices and lessons learned with convoys, and subsequent issues at the Legislature.

Context: per page 10 of the attached OSINT, there are calls for convoys from all over the province to be in front of the Legislature for noon on Tuesday, to disrupt the Throne Speech. Unknown how many convoys will form, but reason to believe some considerable convoys may form up in SAD, WAD, or EAD (in addition to the expected CAD convoys).

Bottom line up front: the key lesson learned/best practice is engaging with the convoys as they gather at their muster points, to discuss/inform/deter/dissuade (and take enforcement action if appropriate), *before* the convoy gets rolling.

This is focused on drivers with oversized loads, horse trailers, farm equipment (driving same or on a trailer), strange loads (why are you bringing a load of lumber to the Legislature?), or other notable or problematic items.

The summary is to engage these drivers, discuss/inform them of the consequences should they misuse or off-load their items at the Legislature, and ideally deter/dissuade them.

Supt. Robinson reports several successes, having problematic trucks being left behind at the muster point. Conversely, they also had a horse trailer at the Legislature today, leading to a "Lone Ranger" rider being essentially chased around the streets of Edmonton. We likely would have had no authority to prevent this driver from bringing his horse to town, but perhaps he could have been informed/deterred/dissuaded at the muster point.

I realize these ideas are surely the intent and actions already being taken in each District, but recent events in CAD emphasize the value of same. Supt. Robinson can chime in with specifics as applicable. She also has specific information regarding overpasses, exits, etc.

This message is to add to your ongoing Ops planning in each District, as/when any specific convoys are identified in your areas. Presumably more intel and clarity will develop in the next 24-36 hours.

Thanks all,

Andrew

Subject: CBSA and RCMP contacts for Transport Canada Flight Operations

Good afternoon folks, I am a Technical Team Lead with the Winnipeg Flight Operations group which is a division of Transport Canada Civil Aviation. Transport Canada Civil Aviation issues NOTAMs (notice to airmen) in order to inform pilots of important updates and potential hazards to note for a specific flight. Some NOTAMs that we issue restrict the airspace for

incidents like forest fires or police activities. A NOTAM was issued for the Ottawa area due to the current protests that are taking place. We are wondering if the RCMP and/or the CBSA are looking for our support to assist with the situation in Coutts AB. If you are the proper contact maybe we can discuss the issue at your earliest convenience. I apologize in advance if any of you are not the proper points of contact and if that is the case maybe you would be able pass on the proper points of contact for this type of decision/discussion for each of your organizations? This is also for planning purposes for potential incidents in AB, MB or SK should any additional situations arise in the future.

Thanks for your attention to this matter,

Dave Dunlop

Subject: Clarification Regarding Coutts Border Protest EDP and Expense Claims Email

Good Evening,

This message is to provide clarification on the message below that was sent earlier today, as it has caused concern to some members.

The reason we are asking for the hold on submitting EDP claims is that the process on how to best approve the claims centrally has not been fully worked out with NWR Business systems. This is an emergency situation and the tracking of all costs, including overtime, needs to be accounted for fully and accurately.

As we do not want someone to submit a claim that is incorrect, or missing entitlements, we are working through the process with the experts to ensure this is done correctly in the first instance. All of the claims submitted need to be within policy, and our goal is not to cause any issues or delays in the future, based on lessons that have learned from previous events and deployments.

We working on this as fast as we can and are awaiting further instructions from CMB, which are expected shortly. We are not wanting to delay any claims, but also don't want there to be issues in any submissions that could cause issues further down the road.

Thank you,

K DEOC

Subject: Important Information Regarding Coutts Border Protest EDP and Expense Claims

Good afternoon,

You are receiving this email because you have previously received Joining Instructions regarding a deployment to the Coutts Border Protests.

We are not able to process overtime EDP claims as of yet, so please do not submit them. There is further clarification needed from NPF, CMB, and policy about this deployment to ensure all claim entitlements are being captured correctly. Further instructions will be forthcoming and emails sent directly to you on how to input your claim.

Expense claims are being processed immediately for claims that are out of pocket. Please see attached instructions on how to complete them properly.

Should you have any questions, please contact K DEOC.

Thank you,

KDEOC

Hay mister.

These asks are killing us. Who should I speak with about getting resources outside of SAD? I've closed 2 detachments and we are going to potentially close a 3rd to keep up with these/

Thanks IAN

Subject: COUTTS - Urgent Request - Immediate response required

Importance: High

***** Forwarded on behalf of Insp. Dave Brunner *****

PLEASE REPLY ASAP

**** Reply directly to Insp. Brunner**

**** Negative replies required as well**

Good morning,

As per our conversations there is an urgent need for Members to deploy to the Coutts Border Protests to assist with vehicle removals being coordinated by Insp. Brachmann.

He is in need of 10 Members to work a 07:00 – 19:00 DAY shift and 10 Members to work at 19:00 – 07:00 NIGHT shift starting **tomorrow February 15, 2022** and working until **Friday February 18.**

These Members are needed to maintain security of the drop site of the removed vehicles.

Insp. DJ.(Dave) BRUNNER,
OIC Cochrane Detachment
Phone: (403) 851-8040
Cell: Irrelevant

Hey James,

Just the quick followup as discussed. . . What we need on our end at some point in the not too distant future is that list of contacted tow companies and Per from tow association's contact info. That should satisfy what we need, but if anything else related to the tow effort comes up on our end I'll let you know.

Thanks!

C.

James,

I submitted this a pay period prior to the email coming out not to as it was being figured out with NPF, etc. It sat in limbo as I was down at Coutts and did not have access to do anything about it. I'm not sure how this affects that PP? I have other stuff on it that has already been approved and stuff awaiting the PP to be finalized so I can make corrections and resubmit OT.

Regards,

Mike

Subject: RE: Coutts/Milk River Airspace Incursions
Date: February 16, 2022 9:39:43 AM

Good morning Donna,

All information is being provided to government through the RCMP NOC from K Div. That information goes over the GOC.

We do not have additional information to share to TC outside of what has already been reported to the GOC.

I spoke to your counterpart this weekend about reporting, and it was agreed TC would be able to receive the reporting through regular channels for situational awareness as this request is outside of TC's mandate or involvement in the protests.

I can share for transportation Canada we have dropped the request for the NOTAM in the area.

Please let me know if you have any further questions.

Thanks, James

Good morning,

I believe TC has a contact in the K Div (Alberta) DEOCC (division emergency operational control center) who could provide an official word on the current status. From our aerial observation the blockade turned into a convoy, left the area and dispersed yesterday. I have requested all 5.1 CYR airspaces be removed which has now been confirmed.

This status update are my observations so not an official RCMP-GRC statement. Please go through your contact in DEOCC for something more official.

Thanks!

Mark.

To: Brown, Breanne <breanne.brown@rcmp-grc.gc.ca>
Subject: Cpl. Nault

Ma'am,

Further to our impromptu conversation, here is the update from Cpl. Jean Nault this morning, advising he is still working at Coutts border, and is slated to continue his role down there, for the foreseeable future:

"I'm actually stationed at the DEOC Reception in Lethbridge, and yes, still here. This is my second rotation here, probably travelling back on Monday, but that may not happen due to some gaps in the coverage here. Just a reminder that I'm leaving for Texas on the 6th, returning on the 12th, and they have me scheduled back in Lethbridge for the 13th for a third round. If the schedule changes at all, I'll advise."

As discussed, my concerns are as follows:

1. Operational need. My understanding is the boarder conflict has been mitigated to the point where resources are no longer being deployed from Operational Units in the Division to back-fill.
2. On February 14th, Cpl. Nault occupied a substantive position in MPU. He is needed to fill his role within our Unit. Due to the Coutts boarder conflict, and his deployment February 15th,

Subject: RE: DEOC Finance / collator

Hello Rita,
Here are some considerations:

SHIFT SCHEDULING

Strategy chosen is a de-centralized model where home shift schedulers will be updating the schedules with the deployment schedules after deployment completion

- Has this information and Shift Scheduling instructions been communicated with the home detachment/home shift schedulers?
- Understanding that the volume is estimated of 50-70 members on a rotational basis, if a member is re-deployed a **second** time to the emergency, the 72 hour rule is re-applied again.
- How is the deployment schedule communicated to the home shift schedulers for updating?
- How is the changed schedule for the deployed hours vetted for accuracy prior to the member claiming EDP?

Important the Shift Scheduling strategy chosen sees the accounting for the difference in the 40 work week leveling to be accounted for after the deployment. This strategy worked for COVID as the scheduling was more so for coverage of regular business hours and not attending to an emergent situation that would require multiple resources for long hours. More than likely the

deployment hours will exceed the home shift hours thus members returning to their home unit will have 'time off'. This strategy has a financial impact:

- The true cost of the emergency will not be accounted for against K0961 as a dollar value since the hours will be absorbed in the home unit schedule ie: RM time off

- Detachments will be impacted by having to accommodate lieu time off due to their members attending the emergency.

> This should be discussed with the financial advisor which will impact the messaging to the deployed members and their home detachments.

EDP

I believe the last emergency has a Work Center created so the EDP recommendation bypassed the home recommender and re-directed to identified Recommenders of the emergency cost center. I am just enquiring with Ottawa on this functionality. Is this something you want? Or did you want the home Recommenders recommending and only approval at K0961?

QUALITY ASSURANCE / INTERNAL CONTROLS

- As mentioned above – who and how are the deployment schedules verified for accuracy?
Keep in mind that emergency deployment scheduling is not common in detachments therefore shift schedulers may not be familiar with the policy clauses.
- Who and how are the EDP claims vetted for accuracy? And vetted against the schedule?
- Are sign-in / sign-out sheets being used?

SUPPORT

- 1st level support:
 - **DEOC** – Support Members on the business process eg: how do I change the schedule for the 72 hours? How to I keep track of the hour difference between home and deployment? What can I claim for Travel?; etc
- 2nd level support
 - Business Systems Helpdesk – Support DEOC to address any questions they cannot answer; address system related or error message questions; provide administrative guidance to DEOC; any tickets deemed 1st level support will be redirected to DEOC via e-mail
- CMLRA – Provide management with guidance on the Collective Agreement and member entitlement;
- NPF – Provide Members with guidance on the collective agreement and member entitlement

OTHER STAKEHOLDERS

Have you engaged the K DIV CMLRA rep? They are the entity to provide management with advice and guidance on the RM collective agreement. When you have questions on interpretation of policy or member entitlements from a management perspective, they should be the ones you contact to provide guidance for your management decisions.

Although in the past, Business Systems bridged this gap or solicited NPO involvement when there have been emergencies, with the creation of the CMLRA entity they would now provide this service. Additionally, when members have grievances or would like clarification of policy, they would be going to their NPF rep who would contact CMLRA.

This entity is new and would ensure compliance to RM policy and/or deal with complaints/grievances.

The CMRLA have been involved to varying degrees in Pacific and Atlantic during their emergencies.

Hi Jenn,

The request below is with Finance and updates will be made. Once you have additional names please advise.

I spoke with Angie, and there are a few more questions around the BTAs. First one being, are members flying to the location, or just driving? This can make a difference with the BTAs. She'd also like to see joining instructions. I've included Angie on the email. If you are available for an MS Teams I'll set something up asap. Let me know.

We will also need a spreadsheet tracking member deployment, as this will be used to JV costs as necessary, for resources.

Thanks,

Subject: DEOC Finance / collator

Rita,

Thanks so much for your help with this!

I spoke to James about the DFSA, and he wanted to make the following changes:

- Please remove Andrew HOBSON completely as a signing authority from the DEOC collators
- Please have Chris FRASIER as a DFSA on collator K0965 ONLY, please remove him from K0961 and K0139 (to free up the spot)

When James determines other DFSA's for the K0961 collator, he will send you an email with name and HRMIS #. This name will only require DFSA for collator K0961.

Thanks!

Jenn

Ill keep this quick. I have travel authorizations submitted. Should I approve them or wait until the BTA is pushed through, and what is the timeline to have the BTA completed.

Thanks, James

Subject: RE: DEOC Finance / collator

Hello Rita,

Here are some considerations:

SHIFT SCHEDULING

Strategy chosen is a de-centralized model where home shift schedulers will be updating the schedules with the deployment schedules after deployment completion

- Has this information and Shift Scheduling instructions been communicated with the home detachment/home shift schedulers?
- Understanding that the volume is estimated of 50-70 members on a rotational basis, if a member is re-deployed a **second** time to the emergency, the 72 hour rule is re-applied again.
- How is the deployment schedule communicated to the home shift schedulers for updating?
- How is the changed schedule for the deployed hours vetted for accuracy prior to the member claiming EDP?

Important the Shift Scheduling strategy chosen sees the accounting for the difference in the 40 work week leveling to be accounted for after the deployment. This strategy worked for COVID as the scheduling was more so for coverage of regular business hours and not attending to an emergent situation that would require multiple resources for long hours. More than likely the deployment hours will exceed the home shift hours thus members returning to their home unit will have 'time off'. This strategy has a financial impact:

- The true cost of the emergency will not be accounted for against K0961 as a dollar value since the hours will be absorbed in the home unit schedule ie: RM time off
 - Detachments will be impacted by having to accommodate lieu time off due to their members attending the emergency.

> This should be discussed with the financial advisor which will impact the messaging to the deployed members and their home detachments.

EDP

I believe the last emergency has a Work Center created so the EDP recommendation bypassed the home recommender and re-directed to identified Recommenders of the emergency cost center. I am just enquiring with Ottawa on this functionality. Is this something you want? Or did you want the home Recommenders recommending and only approval at K0961?

QUALITY ASSURANCE / INTERNAL CONTROLS

- As mentioned above – who and how are the deployment schedules verified for accuracy?
Keep in mind that emergency deployment scheduling is not common in detachments therefore shift schedulers may not be familiar with the policy clauses.
- Who and how are the EDP claims vetted for accuracy? And vetted against the schedule?
- Are sign-in / sign-out sheets being used?

SUPPORT

- 1st level support:
 - **DEOC** – Support Members on the business process eg: how do I change the schedule for the 72 hours? How to I keep track of the hour difference between home and deployment? What can I claim for Travel?; etc
- 2nd level support
 - Business Systems Helpdesk – Support DEOC to address any questions they cannot answer; address system related or error message questions; provide administrative guidance to DEOC; any tickets deemed 1st level support will be redirected to DEOC via e-mail
- CMLRA – Provide management with guidance on the Collective Agreement and member entitlement;
- NPF – Provide Members with guidance on the collective agreement and member entitlement

OTHER STAKEHOLDERS

Have you engaged the K DIV CMLRA rep? They are the entity to provide management with advice and guidance on the RM collective agreement. When you have questions on interpretation of policy or member entitlements from a management perspective, they should be the ones you contact to provide guidance for your management decisions.

Although in the past, Business Systems bridged this gap or solicited NPO involvement when there have been emergencies, with the creation of the CMLRA entity they would now provide this service. Additionally, when members have grievances or would like clarification of policy, they would be going to their NPF rep who would contact CMLRA.

This entity is new and would ensure compliance to RM policy and/or deal with complaints/grievances.

The CMRLA have been involved to varying degrees in Pacific and Atlantic during their emergencies.

Hi Jenn,

The request below is with Finance and updates will be made. Once you have additional names please advise.

I spoke with Angie, and there are a few more questions around the BTAs. First one being, are members flying to the location, or just driving? This can make a difference with the BTAs. She'd also like to see joining instructions. I've included Angie on the email. If you are available for an MS Teams I'll set something up asap. Let me know.

We will also need a spreadsheet tracking member deployment, as this will be used to JV costs as necessary, for resources.

Thanks,

Rita

Subject: DEOC Finance / collator

Rita,

Thanks so much for your help with this!

I spoke to James about the DFSA, and he wanted to make the following changes:

- Please remove Andrew HOBSON completely as a signing authority from the DEOC collators
- Please have Chris FRASIER as a DFSA on collator K0965 ONLY, please remove him from K0961 and K0139 (to free up the spot)

When James determines other DFSA's for the K0961 collator, he will send you an email with name and HRMIS #. This name will only require DFSA for collator K0961.

Thanks!

Jenn

Subject: DFSA

Hi James,
I am asked Rita but she was not sure.
I am looking to update DFSA. To remove Chris Frasier from K0961 and K0139 is fine but I need to create a new DFSA Position. Is there a position number or is it STE associated to Chris? Do you want this position to have s.32&.34 for this cost center?
Just an fyi – when you send me the names of the people that you want to have signing authority I will be re-doing yours as well. You show up as a temporary until March 1 and the way I understand it is your substantive position. It will be seamless for you. Your substantive will replace your temporary record.
Thanks

Subject: RE: DFSA

Hi James,

I spoke with Jonathan in DFSA and what we talked about we can definitely make it happen. We would like to create another DFSA position under your position. This position would be the position that is used when emergencies happen. The cost center that is being used for that emergency would be delegated from your substantive position and the people in this position would have temporary records during the emergency and once it is over would be end dated. Below is the information we would submit to DFSA to make the change.

Create a new DFSA position with the following information:

New DFSA Position Template

1. Position name: Div Emergency Planning
2. HRMIS Position number: STE
3. Who they report to (provide DFSA Position #): 60005840
4. What cost centers they need authority over: K0961
5. What type of authority do they need (section 32/34 or 34 only): Section 32/34
6. If section 32 is requested, do they meet the requirements in the *Notes (yes or no): This position is not a budget holder but requires S.32&34 to sign OT & Expense Claims
7. If section 32 is requested, do they need authority to sign for Sensitive Expenditure (580/581) (yes or no): No

Once you have approved this, the position will be created and we can do the specimen signature cards. We could restrict the specimen signature cards to have authority for only OT & travel/expense or whatever else you want this position to have authority over. All other authorities would be with your position.

Jonathan did have a question on whether Jessica Garrett was still in this position she has S.34 for K0962? If you needed down the line K0961 could be delegated to this position for S.34 only.

I have included DFSA in this message so once approved reply to all and DFSA will make the changes you need.

Regards,
Amanda

Date: February 16, 2022 8:08:00 AM

Hi Kelly,

As per the message below, your meals are entered in the wrong area for team and you need to fix this. You don't enter the meals in the receipt area, but select the meals and it auto populates your rates and deductions. That's why in your claim it shows you have every meal needing a receipt but you don't have one.

Please reach out to your supervisor, as stated below, to help you complete this correctly. You also need to include comments to explain your claim and address the personal vehicle mileage claim. It appears you took your vehicle, but who authorized this? You always need authorization to take personal vehicle for any travel. If you spoke to someone and they stated take your own car please just advise this in your claim.

At the end of the day this needs to stand up to a audit, and I can not sign off on this without all of the information in the claim.

Thanks, James

Subject: expense claim question

Hi James

I know you are super busy and I hate to add to your list of Coutts problems buddy, but, I have one and need your help.

As you likely know, I was sent down to Coutts on day one "just for a day or two". I stayed at the Fairfield hotel on the night of Jan 28th and went to Coutts first thing morning of the 29th. It became evident that I was going to be there more than a day and I was able to call and get another room at the Fairfield for the 29th, 30th, 31st and 1st. I checked out again in the morning on the 2nd and had planned to head home that day but ended up being extended again. I called the hotel and had no luck getting hold of anyone and that was the day we had additional resources coming in. Fearing I'd have no room, I went on booking.com and was able to book 2 more nights.

So I checked back in to a new room and on Feb 2 and stayed there until Feb 4 when I finally left. This brings us to the problem. Upon submission of my claims, I was denied because there are 2 bills for Feb 3. (see attached) I was charged a "GNS" on Feb 3 which appears to be the problem. I was back in Lethbridge on Feb 6 (new hotel) and went in person to the Fairfield on Feb 8 to inquire about the bill. The front desk staff were not able to help aside from providing me with proper paper copies of the receipts and said they'd have the manager call me. The manager never did. I followed up again on Feb 15 and was hung up on by the hotel and then received the attached email from the general manager.

In short, they refuse to refund me the \$154.54 guest no show from Feb 3 even though I was there, in the hotel. As you can see from the email exchange I have attempted to resolve the matter with the hotel and be refunded but they have refused. I've sent additional request since the last email from the general manager and they have ignored me. The manager has refused to take a call or return my calls. I have already confirmed all the charges on the attached receipts were billed to my card and I have already paid the balance.

My request to for DEOC is either to

- a) reimburse me the \$154.54 as it is an expense incurred while on duty
- b) Take over the fight with the hotel as I am unable to reach a resolution and the amount is ultimately a force expense not a personal expense.

Sorry for the long email but I wanted to make it make sense the first time. If you have any questions feel free to give me a call.

Hi Thomas,

As per the information below, we are not able to process the claims just yet as there is further instruction from CMB about inputting the schedule in TEAM. There is further clarification that is needed from them before it can be completed.

The last thing we want is everything being hung up like it happened in the 2018 BC wildfires where there was claw back, claims not being processed for months, so we are getting everything right so it will be a smooth transition.

If you have any questions, please contact S/Sgt Ketola as we were speaking about this today and you should have a message from him.

Thanks, James

Subject: Federal IBET Resourcing

Good afternoon James;

I know you are busy, and we are at the early stages of the clear out. We have a schedule built until Feb 21st with 8 resources days/ nights. If there has been any discussion on what the resourcing ask is from FP moving forward please let us know as we continue schedule planning moving forward. If you have any guidance on the tasking of Fed resources for tonight please advise, as we understand the checkpoints have been collapsed, and (GD/ Traffic/ Sheriffs) resources have been moved to roving patrols.

Thanks

Hello James,

Sorry to bother you on this long weekend.

Appears the "Freedom Riders" are planning to come to Edmonton on Tuesday (pending weather conditions) and ride their horses in the streets of Edmonton while the GoA Throne Speech take place.

I believe this is the same group that was in Coutts during the blockade. A **Personal** appears to be the main contact for the group and the CoE COORDINATOR ANIMAL CARE AND PARK RANGERS SECTION has reached out to him.

Any insight on this group and their interactions with the RCMP in Coutts would be appreciated.

Subject: FW: Information required - Utilization of KDiv resources for Ottawa Protest
Importance: High

Hi Andrew and DECO,

From our last conversation on deployments to Ottawa we confirmed the following numbers of members deployed. Are you able to provide a quick update? Were there any more members than noted below? And are you able to confirm deployment dates?

I've confirmed from our DEOC that we've only deployed members within the PPSA thus far, and below is quick summary.

- 30 from STO – 16 PPSA, 11 MPSA, 3 Federal
- 6 from ERT – likely PPSA
- 1 from CROPS – PPSA

Thank you,
Rita

Subject: RE: JOINING INSTRUCTIONS - ORT
Date: February 23, 2022 2:23:00 PM

Hi Rob,

Before we continue with the next rotation of members on stand by, we will need something in writing from the gold command that we are still requiring the towing members to be on standby.

The numbers of members down in Coutts is only 5.

As there is no need for towing currently, it is time to put this into a maintenance plan and not staff this.

I would suggest we look at having the call out list of members that are qualified and able to use this equipment. We know if there is a blockade again we will need to mobilize members to deal with everything prior to the removal of vehicles, so without those resources in place, do we need to have 5 members down there?

Please check with district on their plans going forward with this and their wishes before we start moving people.

Thanks, James

Subject: RE: JOINING INSTRUCTIONS - ORT

We are scaling back resources. It has been decided that we don't need to bring in another NCO for the VRT. With that said, S/Sgt. MORTON is not required. The plan is that I will leave Friday. Of the 4 drivers and 1 support (ORT van) members coming, 1 of them is Sgt. Farid SIDDIQUI. He has agreed to take on the NCO duties of the team and can drive/tow if needed. This is easily done as all our tasks are caught up and there is very little on the go. If any questions about that let me know.

On a side note, because I have been CC'd all the Joining Instructions, I show the following members coming up for the next set:

1. Chris KIRBY.
2. Rylee GUCKERT
3. Holly LEFRANCIOUS
4. Farid SIDDIQUI (Sgt and NCO of the team).
5. Curtis Harjulla (ORT van support).

Can you please confirm the above persons for me?

Subject: RE: JOINING INSTRUCTIONS - ORT

Good Afternoon Gentlemen,

I am looking to see if we can look into setting up a member to be deployed in an ORT van capacity for the 25th onwards (or sooner/later, if desired), for relieving Cst. Wiese. We have Class 1 Drivers booked for the following:

Wednesday February 23: Travel Day

- February 24: NIGHTS (Training/Crossover with outgoing team)
- February 25: NIGHTS
- February 26: NIGHTS
- February 27: NIGHTS
- February 28: NIGHTS (Training/Crossover with incoming team)

Tuesday March 1: Travel Day

If we could find an ORT vehicle member to mirror this for the time being, I think it would work well.

Thanks in advance,

Justin

Subject: Object removal team member

Good evening,

Insp. Brachmann has asked for a replacement for the "Object removal team" for this weekend - I'm that told you're my resource for this. The schedule for the incoming member would be:

Saturday, February 19, 2022 – travel to Lethbridge

Sunday, February 20, 2022 – crossover training with the current team members to learn how to operate the equipment

Monday, Tuesday, Wednesday, Thursday (February 21, 22, 23, 24)

- o 2 teams of 2 members working 09:00 – 21:00 hours

- o 2 teams of 2 members working 12:00 – 24:00 hours

Friday, February 25, 2022 – return travel

Can you please identify a Member to fill this shift?

Thank you!

Pat - DEOC

Subject: RE: Joining Instructions
Date: February 9, 2022 10:14:00 AM

Morning Scott,

Speaking to CIP it is easier if everyone uses K0961 for all of their overtime and claims. This will save the step on the Admin to JV all the costs back now that article 9 is in place.

I believe we sent out JI's to Jill to send to the team.

FYI there is no cap on the BTA for this collator so the claims can go past the \$2000 mark.

Please let me know if you have any questions.

James

To: Stanviloff, James <james.stanviloff@rcmp-grc.gc.ca>

Subject: Missing link in Communication

Hey James,

We (Provincial Traffic Services) are off on our own reporting line direct to D/CROPS, C/Supt. Kevin Kunetzki. i.e. we don't report to the District Officers. I often refer to the reporting lines for Provincial Traffic Services as the same as Fed Policing. We don't belong or report to anyone, other than, Kevin K. and onto John Ferguson.

As a result, many of the message and emails are lost in translation and do not make their way to myself or Acting OIC, Insp. Chris Romanchych. For example, when DEOC sends a message to the four District Officers, A/DO's or Ops Officers, we (Provincial Traffic Services) don't receive the message. You had mentioned sending something out about the 72 hr notice, scheduling, etc. If you could please include myself in the messaging. Chris is AOL till at least Wednesday, Feb 16th.

Cheers,

Thank you, Mark

Subject: Morning Federal update/ HASP request

Good morning Sir and Ma'am;

A few quick points;

- IBET has resumed assigned points at the border and are prepared for the operations today.
- RPAS has advised that it will be unable to fly today due to winds. Cst. Tyler Sondergaard has been released from RPAS and reassigned to the Fed team.
- Cpl. Badder advised that a small number 7-10 personal vehicles were arriving around 0500 to support protesters.
- Resources are being placed by SAD in operational spots of significance to support today's planned ops.
- Cathy (MPP pilot) Has advised that the weather outlook has improved, by her best estimate she is hopeful they can be in service around 1100.

Only point of action for DEOC; With the update on the forecast DEOC/ CrOp's will need to make official the request to F Div CrOp's/ Air Services that the HASP is officially requested.

Good morning Mel,

We are still working out the instructions with CMB for the process to enter everything in properly, as this has not been decided.

Please do not submit any overtime until the process is sorted out and further instructions will follow on the proper process. We do not want this to turn into previous deployments where there was money taking a long time, claw backs, as they froze all claims while it was being sorted. We want the right answers right off the start.

Subject: Overtime for backfill - Finance

Good Afternoon Everyone,

Apologies if this information is different than previous, but we received clarification from CMB about costing of overtime for backfill at Detachments due to the protest.

Any backfill overtime is billed to the home unit collator they are working, as they are the ones that approved the overtime, and attach the following **I/O 749870**

This I/O will be pulled at the end to see the total cost for this event. We can not add it to the emergency collator as it can not be tracked properly or approved centrally.

Please if you can send this out to your Detachments. If there is a claim that is submitted, we will reject them here with the updated instructions and provide the proper I/O.

Please let me know if you have any questions.

Thanks, James

James Stanviloff, Cpl.

Date: February 14, 2022 3:15:00 PM

The backfill I/O is different than the operation. It is created specifically to track backfill and costed to the home unit.

The JI's only specify the operational I/O.

Thanks, James

Sir and/or James,

Can you confirm the IO# is indeed **749870** as indicated below? The IO# in any JIs I've seen is **749810**. Is it a different IO # for backfilling at the home unit than it is for the deployed members?

Afternoon Folks,

As per below, if you have had to call in Members on OT to backfill for other Members being deployed to Coutts, as per below, the overtime should be billed to the Member's home collator, but then the noted IO number below must be entered with the claim, in order to track properly. I suspect it will eventually be billed back somewhere along the line, but the IO must be included in all OT claims for these backfills. Any questions, please let me know.

Thanks,
Shane

If it is the good ideas please advise them we have a full team involved in the planning, and it is a complex scene that has a lot of moving parts, and thank them for their call.

If they are willing to offer up equipment, such as trucks and trailers and tow trucks, please take their contact information, what they have to offer and send it to K DEOC and we will put them on the list of possible equipment.

Thanks, James

Subject: RE: POC Activation - Level 2 - Alberta Legislature Throne Speech Convoy
Date: February 21, 2022 2:07:00 PM

Hey Andrew,

The POC has elevated the past few weeks on the weekend due to the City of Edmonton activating their EOC because of the slow roll convoys. Transportation and JSG are the only two that are at the table for this, so I am not going to jump into it, as it appears to be political to be activated with the Leg grounds being the focus.

They haven't reached out to us yet and I am not going to "get sucked in" to going.

Thanks, James

Ed and James,

You may already be discussing this between you.

I doubt we need an RCMP "presence" on this, and if we do, it may be viable for Ed to cover it as needed. James, I assume your other DEOC roles make this a less-than-ideal addition to your day...or maybe it is viable for you.

If you do need an extra body for this, I could help out, though I doubt you'll think it's needed.

Ultimately, if we don't need to get sucked in, then maybe why jump in...?

Andrew

Subject: POC Activation - s.37 - Alberta Legislature Throne Speech Convoy

This e-mail has been sent to all CMO's, BCO's, and AEMA all. No requirement to acknowledge receipt.

Good afternoon,

Effective at 1000 hours, February 22, 2022, the Provincial Operations Centre (POC) will elevate from s.37 to s.37 in response to the Alberta Legislature Throne Speech Convoy Protest. This elevation is in support of the City of Edmonton. The City of Edmonton will be elevating their EOC to a level II on February 22, 2022 approximately 1000 hours to 1900 hours.

The Incident:

Albertans against COVID-19 vaccine mandates and restrictions are planning convoys and protests during the Speech from the Throne at the Legislature Grounds in the City of Edmonton on February 22, 2022.

The following Ministry Consequent Management Officers (CMO's) are required to attend the Operational Brief via Teams on February 22, 2022 at 1030 hrs:

- Justice and the Solicitor General
- Alberta Transportation

This is a virtual activation, **please do not attend the POC**. Our Operational Rhythm will be 1000 -1900 hours (may be adjusted as required).

AEMA staff are only required to attend if you have been directly contacted by your Section Chief.

Teams meeting invitation will be sent to those required to attend.

POC will produce the following reports Tuesday February 22, 2022:

- Developing Situation Report (1000 hours)
- Flash Updates (as required);
- Submissions for Executive Summary due at 1630
- Executive Summary (1730 hours)

Subject: Question - GoA - Tridem axle trailer

Morning James,

Just wanted to touch base regarding one of the pieces of GoA equipment, the tridem axle trailer. On 2022/02/17, when the VRT was unloading the Versatile tractor from the trailer, a couple boards on the deck broke (photo attached). It's not anything significant and the trailer can still be used. Would we loop the National Claims Centre in on this or leave it with the GoA as it's their equipment? I will send a message to Jason Delaney, our local Sheriffs contact, today to advise.

I'm off next week, but can make the call to NCMP if needed.

Thanks,

Lee

Subject: Request for heavy equipment from CAF

Good Morning Lieutenant-Commander Joa,

Further to our conversation this morning,

We have exhausted the local resources to try to more the Coutts blockade. Tow trucks will not attend and we have been advised they are being paid by the crowd funding to not attend. We had tow trucks yesterday, but today they have refused to attend due to the amount of threats they have received and the damage it will do to their reputation.

We are starting the formal request for heavy lift vehicles to remove the blockade from the road. It is a mix light trucks all the way to Super B trains with loads (super B train weight max legal load is 63,500 kg).

I have attached a aerial picture of the blockade. RCMP will provide all security of the site and to CAF personal.

If you have any questions, please feel free to give me a call.

Thanks, James

Subject: Request for heavy equipment from CAF

Good Morning Lieutenant-Commander Joa,

Further to our conversation this morning,

We have exhausted the local resources to try to more the Coutts blockade. Tow trucks will not attend and we have been advised they are being paid by the crowd funding to not attend. We had tow trucks yesterday, but today they have refused to attend due to the amount of threats they have received and the damage it will do to their reputation.

We are starting the formal request for heavy lift vehicles to remove the blockade from the road. It is a mix light trucks all the way to Super B trains with loads (super B train weight max legal load is 63,500 kg).

I have attached a aerial picture of the blockade. RCMP will provide all security of the site and to CAF personal.

If you have any questions, please feel free to give me a call.

Thanks, James

Thanks for the update James,

I received your email, but the image did not come through. I spoke with Matt Teasdale (PSC) and prior to the CAF conducting any type of staff checks, all other provincial and federal resources must be exhausted.

Bear in mind that there is also a significant optics portion to this. It would be highly undesirable for the CAF to be seen removing protester vehicles.

Please keep me apprised of the situation.

Kind regards,

Subject: RE: Request for IO: CAD Protests

Hi Amanda,
We wanted to check is that IO# 749810, meant for all protests province wide or is it specific to Coutts.
We were looking to have one for the members that have come out to monitor the protest/events on HWY 2 and the Great Edmonton area with the convoys the past two weekends into Edmonton. This is not backfill for Coutts just operational support.
If the IO# is for everywhere we can use that,

Subject: RE: Request for IO: CAD Protests
Good Morning Claire,
There is already IO# 749810 set up to use to track costs for the protest. This should be used for all

costs related to the protest.

The IO# you are requesting could only be used to track overtime associated to any backfill positions of members deployed. Is this the intended use for this IO#?

Date: February 21, 2022 8:15:00 AM

Hi Rob,

Im guessing you are taking over from S/Sgt Morton on the vehicle towing side?
Airports are not something we are going to want to store a vehicle. The last thing we want is a vehicle being driven through a fence at a airport if someone tries to take back their vehicle. If we seize the vehicle we need to ensure it is stored in a safe location. The airport will not take this on. As the vehicle towing plan was to ensure there is a safe location to store these, is this something you are continuing? There was talk of storing it at CPS or EPS's storage facility. Do you know if this was followed up on? If there was a no I would suggest we reach out to Peter Lemieux with the Province to see if they have a location.
Feel free to give me a call.

Thanks, James

Subject: Seized vehicles - Willy's Towing

Hi folks,

I am taking over the Vehicle Recovery Team in Coutts. I understand that we are to remove the 3 seized vehicles from WillysTowing and Bring down to Milk River while DEOC searches for another place to store them. S/Sgt Tim Kelly questioned me this morning if the Lethbridge Airport is an option since it is federal property and fenced. Apparently there was previous discussion about this. Has that been explored? If it is N option I would further wonder if medicine hat airport is an option to prevent mass miles and movement of the equipment.

Subject: RE: Seized vehicles - Willy's Towing
Date: February 21, 2022 10:31:00 AM

Hi Rob,

This is a follow up to the conversation we had.

CPS was mentioned that these could be stored at a facility they have (I am guessing their Tac facility off 64th street). Can you please see about temporary moving these to CPS. There was discussion they would not take them for long term, but this will buy us some time to find a long term location.

Second – can we check with the investigative team about the long term plan with these trucks. If their plan is to turn them over to SPMD, when will this be done. SPMD looks after all of the costs for storage and will find a place for them to go.

If there is no plan for SPMD then we need to know here:

- What are you looking for the storage of these trucks (indoor, outdoor, fenced, barb wire, gated, security etc)
- What is the size you are needing
- How long are you looking for storage
- Where do you want them stored (city)
- Do you anticipate needing more space for future seizures.

Once we know this we can reach out to leasing unit to find a suitable place.

If you have any questions, please let me know.

Thanks, James

Good Morning Pers,

Thanks for the call this morning.

As the one potential purchase fell through, a ask for contingency is for equipment to move something large out of the way. A 600 Quad Track tractor, a large wheel loader, a bulldozer (850 / D6). A truck and trailer would be needed to transport this and could be used also to transport equipment back.

Also Lance has stated he would provide operators and he has sold some of the equipment.

Please let me know if you need anything further.

Thanks, James

Good morning,

Sadly, our pending deal below fell through the cracks. Oddly, the seller wanted the government to forgo his personal income taxes as part of the deal. I have a lead on one last medium size tow truck that can be delivered today, but that seems to be it. There is more equipment out there, just not something we can with the time constraint we have been provided.

Subject: TRANSPORT CANADA SEEKING IMMEDIATE INFORMATION REGARDING PROTESTS
Importance: High

UNCLASSIFIED / NON CLASSIFIÉ

Hi folks,

My apology for disrupting your weekend while my department is searching at the regional level for any intel regarding the current status at the Coutts border crossing and on going convoy/ protests?

In particular:

- Additional protest traffic arriving
- Protest traffic leaving
- Any enforcement issues
- Any enforcement requests for support
- Status of diverting commercial traffic or, commercial traffic

Additionally any information regarding any other anticipated convoys or protests elsewhere in Alberta? And, does the current NOTAM, set to expire on Feb 16/22 meet your current needs?

Please advise including NIL and any other pertinent information you can share ASAP.

With my thanks,

Donna Sagness

Transport Canada,

My role has been as a part of Mark Hovdestad's team to monitor and communicate our NOTAM needs. Most recent NOTAM activity having been extended and expanded via a separate email chain.

Main contact: Celeste Kopton

NOTAM: (L0913/22) and (L0914/22) are in place currently to meet current needs.

*Big thank you all for your staff assistance.

As for other feedback my response is NIL. All my information will be collated and provided via Mark Hovdestad as RCMP base manager/OIC Air Services.

Sincerely,

Robert Nooy

Good Morning Gentlemen,

We have received a question from our RDG who is in contact with the Deputy Minister. Given what we have seen happen in Windsor today, the question has been asked if there are plans to take similar action in Coutts or Milk River today. Understanding that there may well be information that you cannot share, is there any information that you can provide in response to the question.

Thank you,

Thank you for email.

Jocelyn is no longer in this role for your records.

I am forwarding this to our Air Operations branch, just for their input.

I did hear we had a private plane fly through the airspace and the tail number was captured. I will follow up with the investigation to provide this to you.

Thanks, James

Good evening Cpl. Stanviloff,

Could you please review Cpl. Nault's response below and let me know if this is the case.

I was under the impression from the Joining instructions and our conversation this was the process for our members - attend reception center for all accommodation needs and lots of rooms available.

Thanks,

Kent

Hi Sgt. Dahl:

Please see the attached email from DEOC.

Up to now we've had the good fortune of finding room for the FED guys, but we are reaching a crunch with the hotel rooms and trying to find room for the guys that we have been getting a heads-up/ advance notice of members arrival. The Fed guys have just been showing up and we're scrambling to accommodate them. We rec'd this message from DEOC.

Thanks,

Jean

Subject: Federal Resource Change - Requires Hotel Action

Good Afternoon,

Could you please make the following change for hotels and our Federal Policing schedule:

Cpl. Travis Billeck was scheduled for Feb 13th. Please remove him from the Feb 13 schedule. He will be added to a new schedule working Feb 14 and Feb 15 nightshifts. He will need a hotel for the 13-15 checking out on the morning of Feb 16th.

We are just finalizing the Federal Resource Schedule Feb 14 to 21st and once complete I will submit to DEOC for their info and JI's to be disseminated then.

Thanks,

Kent

Hello,
We have a request from senior Executive for granular locations for the blockades in the Milk River/Coutts area for our situational awareness mapping. Alberta Transportation has approximate locations only at this time as they have nobody on scene.
Can either someone from STOS or geospatial in Edmonton (Mike still?) get us the locations of the blockades as soon as possible for some mapping product.
Thanks in advance!

Good Morning Lieutenant-Commander Joa,

Further to our conversation this morning,

We have exhausted the local resources to try to move the Coutts blockade. Tow trucks will not attend and we have been advised they are being paid by the crowd funding to not attend. We had tow trucks yesterday, but today they have refused to attend due to the amount of threats they have received and the damage it will do to their reputation.

We are starting the formal request for heavy lift vehicles to remove the blockade from the road. It is a mix light trucks all the way to Super B trains with loads (super B train weight max legal load is 63,500 kg).

I have attached a aerial picture of the blockade. RCMP will provide all security of the site and to CAF personal.

If you have any questions, please feel free to give me a call.

Thanks, James

Subject: Ticket Stats for Coutts
Date: February 12, 2022 8:53:00 AM

Good Morning Sir's,

The total stats for tickets to date is 242. This is from both the Sheriffs and the RCMP.

Going forward they are compiling the stats as part of their daily reports.

Please let us know if you need anything further.

Thanks, James

James Stanviloff, Cpl.

Can you please provide me the number of tickets and enforcement that has been taken since the beginning.

We only need the RCMP numbers.

Thanks, James

James Stanviloff, Cpl.

Subject: Towing rates in Alberta
Date: February 13, 2022 6:20:00 PM

Good Evening Ma'am,

I spoke to the towing operators here locally and these are the RCMP towing rates broken down to each type.

Cars and light pick up trucks (up to a 2500 ¾ ton) are \$97.50 for the hook up, \$40 to dolly it (needed for a 4x4) and \$3.15 per KM travelled.

A one ton truck (3500 size) \$ 125 for hook up \$40 to dolly it and \$3.15 per Km

Flat deck tow truck \$140 per hour.

Semi-truck rates for a basic truck is - \$180 a hour.

Trailer hauling rates - \$225 a hour.

A rotator to lift and recover a truck is \$325 a hour.

The hourly rate is charged the entire time from when the equipment leaves the shop to when it returns back to the shop. There is no KM charge as it is included in the rate.

Storage costs are \$50 a day for a pick up truck. Heavy trucks is \$100 for a Semi tractor and \$125 a day for each semi trailer.

I hope this is the information you require. If you need anything further, please let me know.

Thanks, James

James Stanviloff, Cpl.
